

Organic Remedy for Black Spot on Roses

Courtesy of horticulturist Jeff Gillman, University of Minnesota

Add 1 cup milk to two cups of water

Spray mixture directly onto rose leaves about once a week.

Milk contains lactoferrin, a protein that has been shown to help control diseases in animals.

Organic Remedy to Repel Deer

Courtesy of horticulturist Jeff Gillman, University of Minnesota

Combine four eggs with a quart of water. Mix together in a blender

Pour mixture into a spray bottle and spray onto plants that you want to protect from deer.

Deer do not like the odor of eggs.

To Repel Deer and keep Japanese beetles from eating roses

Courtesy of George Newton, Madison Rose Society

Combine six eggs in a gallon of water and spray onto roses.
